

Health Office News

Parents – I would like to remind everyone to be vigilant about checking for head lice. After reading my school nurse emails from the state, it is apparent that lice have been making their presence known in Colorado! Please be aware and check your child and yourself for lice if any symptoms are present.

If your child has lice, **DO NOT** send them to school until you have treated them with an approved lice shampoo, following the directions provided with the product you used. Frequently, a second treatment is needed in a week. Lice do not transmit disease; but they are a nuisance. Remember that lice are not a poor person or dirty person/home problem – they are equal opportunity offenders and actually prefer cleanliness 😊 ([Click Here](#)) for more information and symptoms of lice.
